Installing sensors in machines and systems often requires quick solutions for positioning the sensors. Service personnel or installers involved in mounting sensors need ready-made, compatible solutions.

For these situations Balluff offers the BMS Mounting Kit. From base holders to rods and cross-connectors to the most important sensor holders, the Mounting Kit contains everything needed for achieving a secure sensor position. Afterwards an included order pad makes reordering easy. The rugged aluminum case with additional variable compartments is designed for hard industrial use.
